Approval of annual accounts 2015/2016

19 Sub Committee Reports

20 Correspondence for Information

- DALC Circular 6-7/2016
- CC of letter reference reduced bus service concerns
- Fly tipping on the old railway line behind the flats on Barley Close (down from Jack O'Darley bridge) dealt with by EBC
- A38 Derby Junctions Scheme - Little Eaton Alternative Options response from Breadsall PC
- A38 Team. Thank you for your email of 31 March about the Reference Group and the new alternative options 2A and 2B put forward by the Breadsall A38 Action Group.

Following on from telephone discussions with David Hall and Fiona Williamson last week, I understand that you are disappointed that the alternative options were not presented at the last Little Eaton Stakeholder Reference Group meeting. Nevertheless, thank you for your detailed comments regarding the options. I note your key concern is the impact of the options on the mobile home park residents and concerns that may be raised by them with regards to the options. While we are still in the process of assessing the new options, I want to take this opportunity to offer to attend a meeting with the residents to support the Parish Council in updating them on the latest scheme development and to listen to their concerns. Highways England decided to consider the additional alternative options in line with the assessment presented in the Little Eaton options assessment report, in order to maintain this process as transparent and consistent as possible. We intend to circulate the assessment of options 2A and 2B in June, in advance of a further stakeholder reference group meeting where the results will be reported and next steps will be discussed. Please note that this indicative timescale may need to be reviewed due to purdah and the next meeting date will be confirmed in due course. As discussed with Fiona and David, we would like to extend the invitation to the reference group to one additional person from the Little Eaton Parish Council and I would appreciate if you could confirm who is likely to be this additional attendee. Please be assured that the reference group is intended as an open and transparent forum for any ideas, issues or concerns to be raised and discussed with all attendees providing input. We hope this can be reiterated at the next meeting and to have your continued support for the group.

- DCC response. "Thank you for your email forwarded to me via Little Eaton Parish Council. I have carefully considered your proposals. Fortunately, though on checking our records, it is found that this junction cannot be associated with a poor personal injury accident record. During the last three years of available personal injury accident records, the two nearby accidents which occurred during this time are not of the type which might have been prevented by such a scheme of road improvements. Consequently, taking into account our limited resources I cannot pursue your improvements while there are other locations associated with a worse accident rate already competing for any available resources which may become available during the forthcoming financial year. I can inform though that we are considering improvements along The Town to help possibly implement a multi user trail along the line of the old railway line. Please contact me if you have any further queries".
- Cancellation of Ilkeston and North Community Forum 7pm 20 April 2016

- DCC response ref Bus stop opposite 271, Alfreton Road. I contacted our Traffic and Safety Department to comment on the location of the bus stop in question. " A check of the last three years of available personal injury accident records does indicate that there is demonstrable road safety problem at this bend, the bus stops in the vicinity of the bend could be improved by relocating them further away to a point where greater forward highway visibility is available"-Traffic and Safety. A new location next to the Little Eaton sign was suggested, however this would be too close to the previous stop. As a result of this, I plan to remove the bus stop sign from the street lighting column.
- DCC response ref cultivation licence at junction of Morley Lane/Alfreton Road. At this height and size, it wouldn't be acceptable to have this "rock" at the location the Parish Council request. It would be in the visibility Splay for the junction (affecting visibility for drivers exiting the junction). If it was placed on the grass verge (i.e. behind the footway), such that no part of the "rock" was closer than 4.5 metres from the carriageway edge (i.e. near the existing planter), then this would be acceptable. (Also "rocks" aren't passively safe, so on a risk assessment basis, even in a 30mph limit it would be beneficial to have it at least 4.5 metres away from the carriageway.)
- DCC response. With regard to the report of a car parking on the verge outside No 178 Alfreton Road the Highway Inspectorate has advised no actionable defect was found on site however, the location will continue to be monitored (Our Reference Number 8174728).
- Minutes from the Borough and Parish Councils' Forum meeting held Monday 25 January 2016
- With regard to the issue regarding reported verge damage outside Little Eaton Garden Centre, the Highway Inspectorate has advised that whilst unsightly nothing was considered dangerous at present. The area will continue to be monitored and we will consider erecting bollards depending on our limited budget.
- DCC response. Further to your e-mail in relation to the vegetation issue, our Highway Inspectorate has reported he will inspect the location of concern and action as necessary.
- Confirmation of Vehicle Tax for mower
- Sports Lounge booked 11.4.16 for meeting ref Brackley Gate
- Agenda/Minutes for Planning Committee, Wednesday, 6th April, 2016, 5.30 pm
- Parish and Town Council Liaison Forum Monday 27 June 2016
- Council Matters Spring 2016 - Came & Company Parish Council Insurance Brokers
- Thank you for your email dated 31 January which has been forwarded to me for reply regarding a request for a pedestrian crossing red light camera, and an update on provision of a suitable bus stop on Alfreton Road. Derbyshire County Council as Highway Authority does not install road safety cameras. However, requests can be forwarded to 'CREST' (Camera Reduction Enforcement Support Team) at 'CTOCE@Derbyshire.PNN.Police.UK'. If motorists are driving through red signals on this crossing then you could also contact the local police on telephone number '101' for their consideration of enforcement. On Alfreton Road, I have noted a possible improved bus stop location near to the 'Little Eaton' sign. This will be considered by our 'Public Transport unit'.

21 Date of next meeting 25.5.16 Little Eaton Village Hall, Vicarage Lane, 7.30 pm Annual Parish Council Meeting

PART II – CONFIDENTIAL INFORMATION
